

WOLF-DOG CROSS ACT (EXCERPT)
Act 246 of 2000

287.1010 Exposure to rabies.

Sec. 10.

(1) If a wolf-dog cross potentially exposes a human to rabies by any penetration of the skin by teeth, any scratch that causes penetration of the skin, any abrasion that causes penetration of the skin, or contamination of open wounds or mucous membranes with saliva or other infectious material, the owner or person temporarily in possession of the wolf-dog cross shall report the potential exposure to the local health department within 24 hours.

(2) If a wolf-dog cross potentially exposes livestock or a mammalian pet to rabies by any penetration of the skin by teeth, any scratch that causes penetration of the skin, any abrasion that causes penetration of the skin, or contamination of open wounds or mucous membranes with saliva or other infectious material, the owner or person temporarily in possession of the wolf-dog cross shall report the potential exposure to the permitting agency within 24 hours.

(3) Except as provided in subsection (4), if a wolf-dog cross potentially exposes a human, livestock, or mammalian pet to rabies by any means identified in this section, the wolf-dog cross shall be humanely euthanized by a veterinarian. The wolf-dog cross shall be immediately examined for rabies in the manner provided by rules promulgated under section 5111 of the public health code, 1978 PA 368, MCL 333.5111.

(4) If a wolf-dog cross potentially exposes a human, livestock, or a mammalian pet to rabies by any means identified in this section and, at the time of exposure, the owner or person temporarily in possession of the wolf-dog cross provides a valid certificate from a veterinarian indicating that the wolf-dog cross, at least 30 days before the exposure, was vaccinated with a rabies vaccine approved by the United States department of agriculture, the owner or person temporarily in possession of the wolf-dog cross may elect to have the wolf-dog cross quarantined for a period of 10 days from the date of exposure. If the wolf-dog cross dies, or develops any symptoms of rabies during the quarantine period, as determined by a veterinarian, the wolf-dog cross shall be humanely euthanized and examined for rabies in the manner provided by rules promulgated under section 5111 of the public health code, 1978 PA 368, MCL 333.5111.
