

**PUBLIC HEALTH CODE (EXCERPT)**  
**Act 368 of 1978**

**333.7113 Controlled substances advisory commission; monitoring; investigations; plan of action; annual report; establishment and use of standardized data base format; transmission of information.**

Sec. 7113.

(1) The controlled substances advisory commission shall monitor indicators of controlled substance abuse and diversion. If that data shows that Michigan exceeds the average national per capita consumption of a controlled substance, the controlled substances advisory commission shall investigate and determine if there is a legitimate reason for the excess consumption. If the controlled substances advisory commission determines there is not a legitimate reason for the excess consumption, the controlled substances advisory commission shall recommend to the administrator a plan of action to overcome the problem. The controlled substances advisory commission may also recommend action to the administrator if other indicators show that a special problem is developing with any controlled substance available by prescription.

(2) The controlled substances advisory commission shall publicly issue an annual report to the administrator, the governor, and the legislature on the current status of the abuse and diversion of controlled substances in this state. The report shall also identify existing efforts to overcome the abuse and diversion of controlled substances in this state and make recommendations for needed legislative, administrative, and interagency activities.

(3) The controlled substances advisory commission may include in the report required by subsection (2) recommendations for action that involve licensing, law enforcement, substance abuse treatment and prevention, education, professional associations, pharmaceutical manufacturers, and other relevant individuals and agencies.

(4) By December 31, 1993, the department of commerce, in consultation with the Michigan pharmacists association, shall establish a standardized data base format consistent with the standards of the national council for prescription drug programs that may be used by dispensing pharmacies or a practitioner described in section 7334(2) to transmit the prescription-related information required under section 7334 to the department of commerce electronically or on storage media including, but not limited to, disks, tapes, and cassettes. The controlled substances advisory commission shall approve or revise the standardized data base format within 3 months after the department of commerce establishes the format. Upon commission approval or revision, the department of commerce shall implement transmission of information under the format and prescription-related information required under section 7334 may be transmitted to the department of commerce electronically or on storage media.
