THE PUPIL TRANSPORTATION ACT (EXCERPT) Act 187 of 1990

257.1817 Signal lights; stoplights; flasher lamps; applicability to school buses manufactured before October 1, 1990; conformance with federal regulations.

Sec. 17.

- (1) This section applies to school buses manufactured before October 1, 1990 that have not been retrofitted to meet the requirements of section 19.
- (2) A school bus shall be equipped with signal lights mounted as high and widely spaced laterally as practicable that are capable of displaying to the front 2 overhead alternately flashing red lights located at the same level and to the rear 2 overhead alternately flashing red lights located at the same level. These lights shall have sufficient intensity to be visible from a distance of not less than 500 feet in normal sunlight.
- (3) Overhead alternately flashing stoplights shall be operated by a manually operated switch and detached from any other instrument on the bus. A flashing light shall not be connected to the brakes or the service door on school buses manufactured before October 1, 1990. A 3-inch black area shall be provided around flasher lamps front and rear. Lamps indicating alternating flashing light operation shall be visible to the driver when in a normal seated position.
- (4) Signal lights and stoplights under this section shall be in conformance with current United States department of transportation federal motor vehicle safety regulations found in 49 CFR part 571.
