(1) A board may grant a limited license to an individual if the board determines that the limitation is consistent with the ability of the individual to practice the health profession in a safe and competent manner, is necessary to protect the health and safety of patients or clients, or is appropriate to promote the efficient and effective delivery of health care services.

(a) Educational, to an individual engaged in postgraduate education.

(b) Nonclinical, to an individual who functions only in a nonclinical academic, research, or administrative setting and who does not hold himself or herself out to the public as being actively engaged in the practice of the health profession, or otherwise directly solicit patients or clients.
