

PUBLIC HEALTH CODE (EXCERPT)
Act 368 of 1978

333.2616 Comprehensive health information system; establishment; provisions.

Sec. 2616. The department shall establish a comprehensive health information system providing for the collection, compilation, coordination, analysis, indexing, dissemination, and utilization of both purposefully collected and extant health-related data and statistics, including the training of producers and users of the data and statistics in a manner involving the collaboration at the policy and technical levels of major state and local health operational, planning, professional, and university groups and agencies which require the data in their work.

History: 1978, Act 368, Eff. Sept. 30, 1978.

Popular name: Act 368
