**408.764 License or registration suspensions; notice; appeal; revocation; hearing; reinstatement.**

Sec. 14. (1) The chief inspector may suspend the license of an inspector, repairer, or installer or the registration of a boiler operator or stationary engineer due to the incompetence of the registrant or licensee or due to willful falsification of a matter or statement contained in that registrant's or licensee's application or in a report of inspection made by the registrant or licensee. Written notice of the suspension shall be given by the chief inspector within 10 days after the suspension to the registrant or licensee, the registrant's or licensee's employer, and the board. A person whose registration or license has been suspended may appeal to the board as provided in section 22 and be present in person and be represented by counsel at the hearing of the appeal.

(2) If the board has reason to believe that a registrant or licensee is no longer qualified to hold his or her registration or license, the board, upon not less than 10 days' written notice to the registrant or licensee and the registrant's or licensee's employer, shall hold an administrative hearing at which the registrant or licensee and his or her employer shall have an opportunity to be heard. If, as a result of the hearing, the board finds that the registrant or licensee is no longer qualified to hold his or her registration or license, the board shall recommend to the director that the registration or license be revoked, and the director shall immediately revoke the registration or license.

(3) A person whose registration or license has been suspended may apply, after 90 days from the date of the suspension, for reinstatement of the registration or license.
